DISCONNECTING A FALSE ALARM

STRICTLY ONLY TO BE USED IF THE ALARM IS FALSELY ACTIVATED

1. If the alarm bell is accidentally triggered (a false alarm) in your apartment, use this button to cancel the alarm.
2. You will now have 2 minutes to vent the smoke/source in your apartment before the alarm spreads to the entire building.
3. Each time the button is pushed, you will have another 2 more minutes to vent smoke or what ever triggered the alarm.
4. If a fake alarm is triggered throughout the apartment building, it must be cancelled from the panel in entrance hall. Follow the instructions at the fire panel.
